

Coop Assembly Instructions

Tools needed, 3/4" -9/16" open end wrenches, 5/16" nut driver.

- Layout parts as shown on the back side of this sheet.
- Mount lift handle (#9) on long handle(#10), then on end panel (#1) opposite of the wheels, using 3 hooks. (#16)
- Slide end panels(#1) into the side panel(#2) (wire on inside) and ridge pole(#3).
- Tighten clamps(#23) on each corner using 5/16" nut driver.
- Bolt wheel legs to side panel. Welded stub towards wheel.
- Fasten cable(#12) to lift handle and wheel using snap links (#13). Turnbuckle will adjust coop height when moving.
- Assemble tarp rollup pipes(#6-7-8) with one self-tapping screw(#22) in each joint. The swaged slides into open end.
- Unroll tarp(#5) over coop frame hanging 6" over side panel. Attach with bungees(#14) at every grommet except the last one on the hem side. Tighten tarp by putting tension on the bungees. Slide rollup handle thru the hem with crank handle toward lift handle. Push tarp clip(#24) over tarp edge with the pipe inside.
- Please call 717-768-0747 w/ questions.
- Enjoy your feathered friends!!!
